Hubdrive HR Management

fully embedded in Microsoft Dynamics 365 Business Central

Hubdrive and Business Central are based on the same platform

Hubdrive
HR Management

Hubdrive HR utilizes the same Microsoft configuration, customizing, automation and maintenance tools as Business Central:

1. Entra ID for security and roles,
2. the customizing engine for adaptations,
3. Power Automate for process automation and
4. Microsoft Fabric and Power BI for analytics and reporting

HR for Dynamics Integration for Business Central

The Standard out-of-the-box Integration HR Management for Microsoft Dynamics Power Platform to Business Central

»Within 2 hours, we were able to integrate HR for Dynamics Recruiting and Time Tracking with our Business Central. The benefit for us is brilliant because we can now also use the best HR solution in the world within our ERP landscape. We are thrilled.«

Lisa Mayer
Müller AG, Germany

Benefits for Customers

The Connector from Hubdrive makes it possible for Business Central ERP customers to use their HR management within the Microsoft Ecosystem.

The easy Integration of ERP and HR for Dynamics, has been tried and tested worldwide.

The deployment takes less than 60 minutes. Customers in a wide range of industries rely on this interface every day.

Customers save time and money because a complicated integration project is avoided.

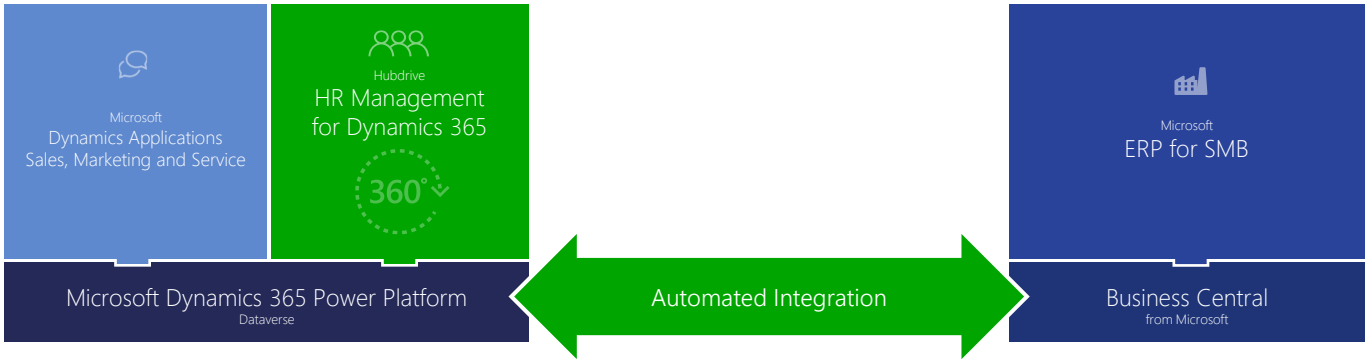

The IT infrastructure is simplified as the number of technologies in the company is massively reduced.

Customers can immediately utilize the advantages of HR for Dynamics in their company.

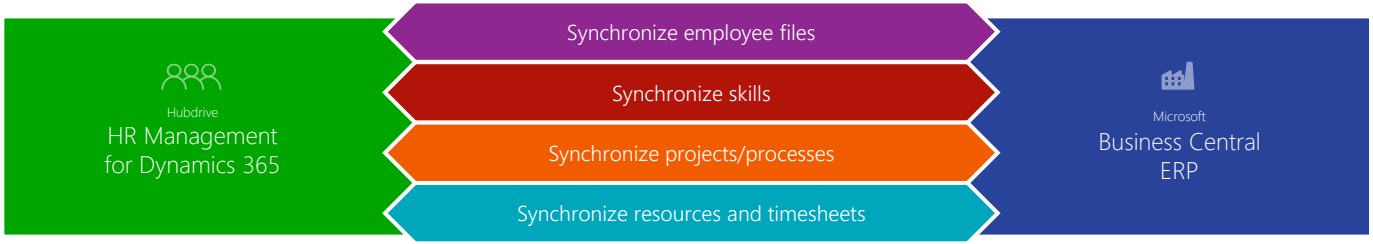

They will immediately benefit from the time savings and automation of HR for Dynamics in their company.

HR for Dynamics Integration for Business Central

More and more companies also want to digitalize their IT islands in HR within the Microsoft ecosystem. Customers using Microsoft Business Central are now able to connect their ERP system with the market leading solution for HR Management in the Microsoft Dynamics Business Platform – HR for Dynamics from Hubdrive. The integration of Hubdrive comes out-of-the-box with various preconfigured integration processes that can be deployed in a fast and reliable way.

Employees will not realize whether they are working in Business Central or HR for Dynamics. All the USPs of HR for Dynamics, such as the Teams integration, the comprehensive 360-degree solution and the simple customizability, are of course retained.
